DIVISION OF
OIL, GAS & MINING

ANNUAL REPORT OF MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1953, as amended, and the General Rules as promulgated under the Utah Minerals Regulatory Program. An operator conducting mining operations under a Notice of Intention must file an annual operations and progress report (FORM MR-AR) with the Division.

I. GENERAL INFORMATION

1. Report Time Period: From (mo./yr.) Jan '87 To (mo./yr.) Dec '87
2. DOGM File Number (original notice): M / 023 / 004
3. Mine Name: Leamington Quarry
4. Mineral(s) Mined: Limestone
5. Name of Operator or Company: Southwestern Portland Cement
6. Permanent Address: P.O. Box 51
Nephi, UT 84648
7. Company Representative (or designated operator):
Name: Bob Feaman
Title: Quarry Superintendent
Address: P.O. Box 51, Nephi, UT 84648
Phone: (801) 857-2380

☐ Please check if any of the above information has changed since previous year.

II. MINING AND RECLAMATION

1. Was the mine active during the past year? Yes ☒ No ☐
2. If active, how much ore or mineral was mined? 453,000 Tons

3. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, volume of material moved, and the acreage affected.

We have no new disturbances to report. All mining was done within the perimeter of previously reported surface disturbance.

4. Briefly describe the reclamation work performed during the past year. This description should include acreage reclaimed, methods employed, and an evaluation of the results.

No reclamation occurred.

5. What was the total unreclaimed acreage at years end? 127 Acres

6. Briefly summarize mining and reclamation planned for the upcoming year.

Mining will continue in the same manner as in the past years, although production will be slightly lower than this year. Most mining will occur within the currently established perimeter of disturbed land with little land being opened up. Slope stabilization benches will be cut at the 6200 ft elevation as described in mining plan. These benches will aid our

III. ADDITIONAL INFORMATION future reclamation efforts.

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
No significant changes have been affected.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.

IV. SIGNATURE REQUIREMENT

I hereby certify that the foregoing is true and correct.

Signature of Operator: Bob T. Weeks

Name (Typed or Print): Bob T. Weeks

Title of Operator: Plant Manager

Date: 15 Dec 88
